PLASTIC & RECONSTRUCTIVE SURGERY

Richard J. Restifo, MD Amanda Paradiso, PA-C P:203.772.1444 F: 203.907.0503

Labiaplasty Preoperative Instructions

Your day/time of surgery is _____ . The location is _____ .

- ◆ Please arrive to the facility at least one hour prior to your scheduled time.
- ◆ If you are a smoker, please stop for a minimum of 4 weeks prior to surgery. Smoking reduces circulation to the skin and will slow your healing.
- ◆ Avoid Aspirin, Ibuprofen, Advil, Motrin, Naprosyn, Aleve, Celebrex, Excedrin, Fish Oil and Vitamin E containing products for 2 weeks prior to surgery. This also includes the use of multivitamins and herbal supplements. All of these medications have a tendency to prolong bleeding. Please review the attached sheet to confirm the use of any of these. ***Tylenol is preferred for pain relief.***
- ◆ You have received prescriptions for _____ .
You should have these filled **prior** to your day of surgery. You will not need to take any of them until after surgery.
- ◆ ***You should have your bloodwork drawn at least two weeks prior to your surgery.***
- ◆ Have NOTHING to eat or drink after midnight on the night before your surgery.
- ◆ Please purchase antibiotic ointment (such as Bacitracin or Neosporin) for postoperative wound care and a perineal irrigation bottle for post void cleansing. We also recommend using Dermoplast Antibacterial Pain Relieving Spray and TUCKS Medicated pads for postoperative discomfort. These items can be purchased over-the-counter at your local pharmacy or online at www.amazon.com.
- ◆ On the day of surgery, wear a large, front closure shirt and loose fitting pants with an elastic waist.

Other: _____
